

South House Silver Workshop Trust September Workshop 2013

Registered Charity No 1151646

The first of the Silver WorkshopTrust bursary silversmiths, Kyama Hayley and Jen. Four silver enthusiasts joined us for a week long silver workshop.

Graham, Jane, Rod (Alfie the pointer) Robann and Charles. Graham and Charles raising silver beakers. Jane hammered a plate in silver and chased the border, Robann made a large silver chased salad server

The three girls stayed for two weeks, raised small vessels, forged new chasing tools, made a steel scorer, scored and folded silver sheet as well as making and chasing a copper 'fish' spoon. It was a lovely project, the weather was wonderful. With the whole workshop needing painting with wood preservative the girls were very happy to lend a hand at the weekend. One evening fishing from a boat on the voe in front of the workshop we caught over sixty mackerel and ate them for supper cooked in Oatmeal, the traditional Shetland way.
